Notes.

A few days like this will give the milliners a boom.

Regular meeting of the common council this evening.

The ice wagons have made their appearance in our streets.

Janesville lodge No. 55, F. and A. M. will meet in Masonic hall this evening.

Last night was the first this year when the mercury did not go below the freezing point.

The city churches were all well attended yesterday, both morning and evening. The day was the pleasantest of the year.

There was no criminal business before the municipal court to-day—an unusual thing for Monday.

This has been the first day that we have had a taste of "spring's ethereal mildness." It was quite enjoyable, and more of it is wanted.

The pleasant weather of to-day had the effect to cause several of our business men to hang out their awnings for the spring and summer.

Miles Doran, the tailor, has moved his establishment from North Main street to the store just east of the Grand hotel, on West Milwaukee street.

The Howarth's Eibernian troupe took dinner at the Myers house, to-day, en route for Fort Atkinson, where they give a performance this evening.

Rich & Silber, 413 to 417 Broadway, Milwaukee, announce in another column of the Gazette, a large line of specialties in the way of seasonal spring goods. Orders by mail receive prompt attention.

Mr. N. O. Clark received a postal card to-day from his farm some 200 miles north of St. Paul saying that the weather was fine and seeding was going on rapidly. That suits Wisconsin to shame.

Mr. Earl Teller, of Union, called upon the county clerk to-day with the seal of a wolf, killed in that town last month, for which he received ten dollars county bounty and a certificate for six dollars on the state treasurer.

There was another large audience at the roller skating rink on Saturday evening. The programme was a good one, and the exhibition quite interesting. The rink will give exhibitions every evening this week, and prizes will be generously offered.

The Concordia society will give one of their popular and pleasant dancing parties at their hall in the Mitchell block, on Monday evening, April 16th, to which they give a cordial invitation to the public to attend. Anderson's band will furnish the music.

It is claimed by persons interested in the telephone business here, that the line will be extended from Rockford to Chicago within sixty days, thus connecting Janesville with Chicago. To the business interests of this city the extension to Chicago will be of substantial importance.

All night of Tuesday wild geese, following the course of Rock river, were flying northward. But last night their passage was phenomenal. It continued until morning. At least ten hundred thousand flew over this city. "The air was thick with pinions," and there was meat for a million men.—Rockford Gazette.

The Janesville postoffice paid seventy-seven money orders during the past week, aggregating \$1,226.61, and during the same time issued one hundred and twenty-six, calling for the sum of \$1,218.38, the fees amounting to \$14.10, making a total business for the week of \$2,459.09, against the sum of \$2,723.04 for the week previous.

The next attraction in this city will be Barney Macaulay, in the "Messenger from Jarvis Section." He will be well supported, and will appear at Myers' opera house on Friday evening, April 20. Little, with an excellent company, will give a performance at Myers' opera house on Tuesday evening, April 24. The first part of the programme will consist of a concert, and the second, the fourth act of Faust, will be produced in costume.

Our readers have known for months past that ere long two of the great railroad corporations which run through this city, would erect a fine, handsome union passenger depot near the site now occupied by the two companies on South Main street. The plans and specifications for the same are now being prepared in Chicago, and in a few months the work of erecting a suitable structure for passenger purposes for these two companies will begin.—Rockford Gazette.

This afternoon, shortly after three o'clock, George Trenwith, who resides near Milton, and who had just been released from the county jail, entered the saloon of Jones Brothers, on East Milwaukee street, and attempted to raise a row. Mr. Jones informed him that he was in the wrong place for that business, and requested him to leave. Trenwith being full of fighting whiskey, refused, and after insulting several parties in the saloon Mr. Jones put him out, and in doing so broke some of the glass in the saloon front. Sheriff Harper was soon found, and after a short chase, captured Trenwith upon the second ward and took him to jail.

On Saturday afternoon Supervisors Rathbarn and Ward, the committee on public buildings of the county board of supervisors, inspected the new well at the court house, and pronounced the same in accordance with the contract and authorized the county clerk to pay for the same. The contract was let to Mr. Nelson, the janitor of the building, who furnished everything, including pipe, pump, and the brick, completing the well for the sum of eighty dollars. The court house occupants now boast of having as good a well of water as there is in the city.

The funeral of the late Dr. J. F. Hallihan was held at his late residence on South Main street this afternoon at three o'clock, and was attended by a large number of sympathizing friends of the family. Rev. C. M. Puller, of Christ church, conducted the service. Mrs. C. B. Conard and Miss Hathie Dearborn, Mr. Wm. Bladen and George K. Colling rendered appropriate song service. At the conclusion of the service at the house, the remains were taken to Oakhill cemetery for burial. The following gentlemen acting as bearers—Messrs. E. B. Heimstreet, J. A. Sutherland, R. M. Bostwick, C. B. Conard, John Dewey and W. S. Bennett.

Fond du Lac is again in trouble. The council approved a bill of \$5,811.07 for the electric light towers, and now a tax payer has enjoined the city officials from paying the money, on the ground that the council has no right to incur indebtedness beyond five per cent. of the assessed valuation of the city. Already the city bonded debts is \$153,500 or \$15,000 more than five per cent. of its valuation, and there is only \$35,000 in the treasury, and \$30,000 worth of city orders were issued last year on time, to be paid out of the next tax levy. Thus the city is in a bad way, and growing worse. The assessed valuation has decreased one million dollars within the last few years, while the indebtedness has grown in proportion to the valuation. The tax payers are going to test the question whether the council had a right to incur a debt for electric lights when the city's debt already exceeded the constitutional limit.—Oshkosh Northwestern.

From the annual report of the chief engineer of the Oshkosh fire department, we find the following items which will be of some interest to the citizens of Janesville: The department responded to 58 alarms during the year, 11 of which were false alarms. Of the above, 38 were transmitted by fire alarm telegraph and 11 by telephone and nine by steam whistles and other means. The loss by fire the past year has been remarkably small. The total expenses of the department for the past year was \$21,594.21, of which about \$5,000 was for supplies and permanent improvements, which deducted from the total cost would leave the current expenses the past year, \$16,594.21. The chief puts in the expenses of the previous year at \$18,320.39 leaving a balance in favor of the past year of \$1,725.17. The department consists of four steam engines three of which are in service, (one relief) four hose companies, and one hook and ladder company.

Messrs. Thoroughgood & Co. will be a little more careful hereafter how they sell shavings by the load. They have been selling shavings to Colonel Burr Robbins during the winter at 35 cents per load, delivered at Spring Brook. Today Delavan telephoned to the shop and asked what they would charge for a four-horse load at the box factory. The answer was sent back, "fifty cents." The price was accepted, and Delavan hatched four horses to the canvas wagon, a vehicle, the box of which is seven feet high and some fifteen or twenty feet long, and wide enough to occupy more than its share of the highway. When this huge concern arrived at the factory, all hands turned out to see what was up. The boss was informed of the errand. He looked at the huge wagon box, and then at the pile of shavings, but finally concluded that the best way out of the job was to live up to the contract. The box was partly filled, in fact all the shavings on hand was required, and Delavan started for Spring Brook, with the remark that he would take another load at the same price; but a faint voice was heard to emanate from the office, which sounded very much like Thoroughgood's, not much.

Immense crowds at the at the auction room, Smith & Jackson block every afternoon and evening.

Personal.

Mr. Francis Grant, court reporter, is in attendance upon the Jefferson county circuit court.

Mr. I. T. Carr, of the Jefferson County Baunier, was in the city to-day on his way to Madison.

Mrs. Olin A. Curtis, is still at St. Augustine, Florida. The latest advice is that her health is gradually improving.

Judge John R. Bennett went to Jefferson this afternoon, for the purpose of disposing of the law cases in the Jefferson county circuit court.

Mr. William McConeh, of Philadelphia, a brother-in-law of Mr. J. P. Hullahan, is in the city to-day, called here to attend the funeral of Dr. Hullahan, which took place this afternoon.

The friends of Rev. G. W. Wells tendered him a reception in the First M. E. church on Thursday evening, when a purse of \$50 was presented him. Mr. Wells is greatly improved by his trip west, and will occupy his pulpit Sunday, morning and evening.—Oshkosh Northwestern.

Mr. C. E. Wilkins, of the firm of Wilkins & Co., was married to-day at Altona Grove, to Miss Mary E. McKimney, of that place. Mr. Wilkins will return to the city this evening, with his fair partner in life, and will receive the hearty congratulations of many friends for a life brim full of happiness.

Mr. C. H. Payne, of Beloit, who formerly lived in this city, and who has been very low with consumption for some months, was visited yesterday by a party from this city, and found to be very low indeed. It is said that Mr. Payne cannot survive many days. This sad report will be deeply regretted by the many friends of Mr. Payne in Janesville.

Mr. Charles Murray, superintendent of the Chicago & Northwestern railroad, has issued a circular announcing the appointment of Mr. Myron J. Carpenter as agent at the South Branch Station, Chicago. Mr. Carpenter is a Janesville boy who learned telegraphy with Mr. Richard Valentine about ten years ago, and has worked in Chicago up to his present position, by strict integrity and attention to duty. The South Branch Chicago station is one of the most important on the Chicago & Northwestern railroad.

A fine line of plated ware at the auction room, Smith & Jackson block.

The New Railway.

The engineers and surveyors of the Chicago, Burlington and Quincy railway company are now at work some three miles this side of Beloit at which distance the survey has been completed. A gentleman from Beloit who was in the city this forenoon, and who has had some talk with the surveyors, says that they are surveying the track through the township of Turle and La Prairie, on the first quarter section line west, striking the city limits at Spring Brook and following the ravine to the neighborhood of the fair ground, where the depot will be located. The road will thence go direct to Indian Ford, Edgerton and Madison. The above is given to the readers of the Gazette for what it is worth. The engineers will be here in a few days, when the real facts in regard to the exact location of the new road will be settled. It is evident, however, that it will pass through this city on the east side of the river.

The Beloit Outlook has this item in relation to the new road:—"A party of ten engineers, employed by the Chicago and Iowa railroad, with Sam. Ballard, Esq., as their chief engineer, arrived at the Goodwin house yesterday. The corps is engaged in making a survey for the extension from Rockford to Beloit, Janesville and Madison of the Chicago and Iowa railroad, a road that was purchased some two years since by the Chicago, Burlington & Quincy company; and the engineer in charge of this party, Sam. Ballard, is one of the oldest employees now in the engineer department of the C. B. & Q. The proposed road is probably intended, if built, to be a continuation of a coal road, called the Joliet Rockford & Northern, already incorporated and partially built by the C. B. & Q. The Chicago and Iowa being used as part of the line. Nothing definite can be learned as to the probability of this survey being eventually followed by the construction of a road, as the line now being run is the first and preliminary step towards such an end."

Commercial Timmers.

There seems to be a move on foot among the number of merchants to try and disengage with the services of these hard working and faithful employees, and go back to the old fashioned way of selling goods, but it cannot succeed, for the drummers controlling their customery control the trade. Many of the fraternity have drawn large prizes in the lotteries, and as their opportunity is great, they are unanimously of the opinion that the Commonwealth Distribution Co. is the fairest in the world and that the great drawing which takes place in Louisville, Ky., April 30th, offers an unprecedented chance to win a fortune for a small outlay. Capital prize, \$30,000. Tickets only \$2 each. Address your orders to R. M. Boardman, Louisville, Ky.

Dyspeptic, nervous people, "out of sorts," CORDEN'S LIQUID BEEF TONIC will cure. Ask for Corden's. Of Drug-gists.

The Man Who Talks Much.

We want to say a word to you who make a living with your tongue. You certainly must have a clear, strong voice to engage your hearers. Dr. Thomas' Electric Oil for sore throat, colds, and hoarseness is unexcelled. Use and admire.

Sold by Palmer & Stevens and Sherer & Co.

Children's matinee at the rink Wednesday afternoon. Prize awarded for half-mile race.

To-morrow night there will be a half mile race at the rink for a 15 admission ticket.

Prof. Howard's Baking Powder.

PURE AND EXCELLENT.

BARON LEBER, the leading chemist of the world, says: "I have, through a great series of experiments, satisfied myself of the purity and excellence of Prof. Howard's Baking Powder."

Fast time made on the little wheels at the rink this week.

The Weather.

REPORTED BY FRANKLIN & EVANSON, DRUGGISTS.

At seven o'clock yesterday morning the thermometer registered 30 degrees above zero, and at one o'clock p. m. at 48 degrees above. Partly cloudy with westerly wind. At seven o'clock this morning the thermometer registered 40 degrees above zero. Clear with wind from south.

At one p. m. the register indicated 58 degrees above. Clear with wind strong from southwest.

WASHINGTON, April 9, 1 a. m.—The following are the indications for to-day: Upper lake region—Warmer, partly cloudy weather, rain in the northern portions, southerly to westerly winds, lower barometer in the southern and eastern portions.

"Husband, let's tell the proprietor that Brown's Teething Cordial saved baby's life!"

The largest stock of eyeglasses and spectacles in the city, retailed at wholesale prices, at the auction room Smith & Jackson block.

Tobacco Sales.

Sales of seed leaf tobacco reported by J. S. Gans' Son & Co., tobacco brokers, No. 131 Water street, New York, expressly for the Janesville Gazette, for the week ending April 9, 1893:

850 cases, crop of 1890-91, Ohio, at 44 to 46 cents.

110 cases, crop of 1891, Pennsylvania, at 15 to 16 cents.

100 cases, crop of 1891, New England, at 16 to 17 cents.

100 cases, crop of 1891, Wisconsin Havana seed, at 14 to 15 cents.

100 cases sundries, at 4 to 16 cents.

Total cases, 850.

Fine line of table linen, napkins and hosiery at astonishingly low prices at the auction room Smith & Jackson block.

Matinee's Matinee.

This troupe gave a very fine performance at Myers' opera house on Saturday evening. Part first, which usually tests the ability of a minstrel company, was much better than is generally heard at such shows. The singing was far above the average; the orchestra excellent; and the puns, jokes, and witticisms fresher and sharper than those frequently peddled by minstrel troupes. Some of the songs were exceptionally fine. "Rocked

The New Railway.

The engineers and surveyors of the Chicago, Burlington and Quincy railway company are now at work some three miles this side of Beloit at which distance the survey has been completed. A gentleman from Beloit who was in the city this forenoon, and who has had some talk with the surveyors, says that they are surveying the track through the township of Turle and La Prairie, on the first quarter section line west, striking the city limits at Spring Brook and following the ravine to the neighborhood of the fair ground, where the depot will be located.
